

Loading: T-Lane Transportation, Logistics and Cranes employs experienced and professional staff for the loading of all containers. T-Lane recommends that a marine cargo surveyor supervise the stowage and securing of all ocean containers. If you do not wish to have a lashing certificate issued by a marine cargo surveyor, any additional costs assessed by the steamship line or port will be passed back to you. Costs may include but are not restricted to items such removing, re-working and returning the shipment or steamship line assigned marine cargo surveyor costs.

Container Capacity: T-Lane Transportation will not load any container beyond the stated carrying capacity stated on physical container.

Pressure Washing: T-Lane Transportation can arrange to have your vehicle / machinery pressure washed prior to exporting. Please note, T-Lane cannot accept responsibility should the cleaned vehicle / machinery be denied entry into the destination country. T-Lane recommends you have a Marine Surveyor inspect your shipment prior to departure.
